Mithesh R Shetty

Udupi, Karnataka, India | +91-6362969943 | shettymithesh030@gmail.com | linkedin.com/in/mithesh-shetty030 | github.com/mitheshshettyy

Education

NMAM Institute of Technology — Nitte, Karnataka
Bachelor of Technology in Computer Science and Engineering | CGPA: 8.78/10 — *Aug 2023 – Present*

Vidyodaya Pre-University College — Udupi, Karnataka
Pre-University College | 94.5% — *Aug 2021 – May 2023*

Experience

Full Stack Development Intern — Nov 2025 – Jan 2026
ALGOORBIT Innovations Private Limited — *Remote*

- Built course management and student progress tracking modules for a MERN stack EdTech platform serving 100+ registered users
- Implemented role-based access control using JWT with separate permission scopes for admin, instructor, and student roles
- Improved MongoDB query performance by optimizing database queries and adding indexes, reducing average API response time by ∼25%
- Developed and tested RESTful API endpoints in Express.js with consistent schema validation and structured error handling

Projects

Complexify | *Python, FastAPI, Scikit-learn, HTML, CSS, JavaScript* — Feb 2026 – Apr 2026

- Built a tool that accepts Python code and predicts time and space complexity, code readability score, and optimization suggestions via a FastAPI backend and JavaScript frontend
- Extracted AST-based features such as loop nesting depth, recursive call patterns, and branching structure as numerical inputs to the classifier
- Trained a Scikit-learn model on ∼1,000 labeled samples, achieving ∼78% validation accuracy across five complexity classes

NextResume | *Next.js, React, Node.js, NextAuth.js, JavaScript* — Nov 2025 – Jan 2026

- Developed a resume builder with a live preview editor where changes to structured sections are reflected instantly in the formatted output
- Implemented session-based authentication with NextAuth.js and protected routes to support saving and retrieving multiple resume drafts
- Integrated react-pdf to render the resume layout as a downloadable, print-ready PDF document

Virtual Garden | *Next.js, React, Tailwind CSS, MongoDB, Three.js, TypeScript* — Jun 2025 – Sep 2025

- Built a platform for browsing and submitting medicinal plant entries, including gallery, submission form, and contact features using Next.js API routes and MongoDB
- Rendered an interactive Three.js 3D scene on the landing page with animated plant models to provide visual context for the platform
- Designed a fully responsive UI using Tailwind CSS utility classes, ensuring consistent layout across mobile, tablet, and desktop devices

Technical Skills

Languages: Java, Python, C/C++, JavaScript, TypeScript, HTML/CSS
Frameworks & Libraries: React, Next.js, Node.js, Express.js, FastAPI, Tailwind CSS, Three.js
Databases: PostgreSQL, MySQL, MongoDB
Developer Tools: Git, GitHub, Postman, Docker, Render, Vercel, VS Code
