Education

NMAM Institute of Technology — Nitte, Karnataka
Bachelor of Technology in Computer Science and Engineering | CGPA: 8.78/10 — *Aug 2023 – Present*

Vidyodaya Pre-University College — Udupi, Karnataka
Pre-University Education | 94.5% — *Aug 2021 – May 2023*

Experience

Full Stack Development Intern — Nov 2025 – Jan 2026
ALGOORBIT Innovations Private Limited — *Remote*

- Developed course management and student progress tracking features for a MERN-stack EdTech platform serving 100+ registered users
- Engineered JWT-based authentication and role-based authorization for admin, instructor, and student access across protected REST API endpoints
- Optimized MongoDB queries and introduced indexes for high-frequency operations, reducing average API response time by ∼25%
- Built and validated REST APIs with Express.js, incorporating input validation and centralized error handling across application modules

Projects

School ERP | *React.js, Node.js, Express.js, PostgreSQL, Prisma* — Jun 2026 – Aug 2026

- Developed a school management platform supporting academic and administrative workflows for students, faculty, parents, and staff
- Engineered JWT-based authentication and role-based authorization across protected REST APIs for admin, faculty, student, parent, and staff roles
- Implemented subjective-answer grading using text-similarity scoring to evaluate submitted responses against expected answers
- Designed a PostgreSQL schema with Prisma comprising 53 models and 17 indexes for academic and administrative data

LinkScope | *React.js, NestJS, TypeScript, PostgreSQL, Prisma, Redis, Docker* — Apr 2026 – Aug 2026

- Built a multi-tenant URL shortening platform for organization-level link management and click analytics within a shared SaaS application
- Enforced tenant-level data isolation with Prisma, ensuring users could access only URLs and analytics associated with their organization
- Implemented JWT-based authentication with role-based permissions and refresh-token rotation for secure API access
- Integrated Redis for short-link caching and asynchronous click-event processing, and containerized PostgreSQL and Redis with Docker for reproducible development

Technical Skills

Languages: Python, C++, JavaScript, TypeScript, HTML/CSS
Frameworks & Libraries: React.js, Node.js, Express.js, NestJS, Prisma
Databases: PostgreSQL, MongoDB, MySQL
Developer Tools: Git, GitHub, Docker, Postman
